

LEOPOLD'S FUNERAL  
VERY CEREMONIOUS

This Despite Deal King's Expressed Wish That Obsequies Should be of Simplest.

## BODY PLACED IN ROYAL VAULT

Near It Rest the Remains of Queen Marie Henrietta, Princess Josephine And Duke of Brabant.

Brussels, Dec. 22.—The body of Leopold II, king of the Belgians, was placed today in the royal burial vault in the Church of St. Mary at Laeken, the suburban residence of the royal family. Near it rest the remains of his queen, Marie Henrietta, the Princess Josephine, and the young duke of Brabant.

The funeral and burial were conducted with all the pomp and ceremony of which the state was capable despite the wish expressed by the monarch in his will, that the obsequies should be of the simplest.

A holiday had been proclaimed and thousands of persons filled the streets during the services. Early in the day the body was taken from the royal palace to the cathedral of St. Michel and Ste. Gudule where impressive funeral rites were held. From the church the cortege moved to Laeken where repose the bones of Leopold I, Queen Louise and those of Leopold's immediate family whom he had survived.

A funeral train accompanied by a driving wheel ushered in the day, but as the cortege left the royal palace and moved to the cathedral the downpour ceased.

AUSTRIAN HISTORIAN  
DECEIVED BY FORGERIES

Vienna, Dec. 22.—The evidence presented at the trial of Dr. Friedjung, the historian, charged with libeling several deputies of the Croatian Diet in the Hungarian parliament, tends to show that the defendant was misled by forged documents. Efforts are being made to arrange a settlement out of court, but Dr. Friedjung has declined to accept the plaintiff's conditions, or withdraw his accusations.

## WANT STREET CARS WARMED.

New York, Dec. 22.—The general manager of the Interborough Rapid Transit company was summoned to a conference with the New York Public Service commission yesterday on the advisability of having his cars better heated. After entering the commission's office, the transit man turned up his collar and shivered.

"Are you cold?" asked one of the commissioners.

"If I kept my cars as cold as you keep this office," he replied, "you'd have me up on an order in a minute."

The steam heat was turned on and the conference proceeded.

HOOKWORM INVADERS  
CITY OF NEW YORK

New York, Dec. 22.—Three New York doctors who have been studying the hookworm disease for several months, have gathered evidence to show that New York City has a large and increasing number of cases. Through the New York academy of medicine, they have announced their belief that the hookworm is getting into New York through the employment of foreign labor and southern negroes. Several Americans they say have just returned from observation in New York hospitals, in which the disease was particularly violent, resulting fatally in a few weeks.

THIRTEEN STEAMERS  
WILL SAIL FRIDAY

New York, Dec. 22.—Superstitious sailors will find cause for comment in the fact that 13 ocean steamships are scheduled to sail from New York on Friday. Friday is usually a slim sailing day, as many persons still regard it as an unlucky day to leave port. But because next Saturday is Christmas day, most of the regular Saturday boats will leave Friday morning, making the largest number of sailings for the day on record.

HOW ARGENTINA  
DEALS WITH ANARCHISTS

New York, Dec. 22.—Argentina's summary method of dealing with anarchists was described today by a party of Americans who have just returned from the South American republic. Four thousand persons suspected of being anarchist sympathizers, were exiled within a period of a few days, following the assassination on Nov. 11 of Col. Falcon, chief of police of Buenos Ayres. Four hundred of the more violent agitators were sent to penal colonies in Patagonia and ordered to live there according to their own ideas of what a government should be.

SANTA CLARA COLLEGE,  
SAN JOSE, BURNED

San Jose, Cal., Dec. 22.—Fire which started in a room occupied by Father Victor White, vice prefect of discipline and instructor of Latin, shortly after 1 o'clock this morning consumed property at the Santa Clara college, three

miles from here, roughly estimated at \$100,000. The entire south wing, occupied by the scholastic clergy burned.

The destroyed wing contained three valuable reference libraries, used by the fathers, teachers and students. Among the books were historical records written by the early Jesuit fathers. The largest collection of sacred relics on the coast, also in this building, was a total loss.

The students were away on vacation. The college is one of the pioneer institutions of this coast. A portion of the burning building was erected in 1818.

BOSTON MAYORALTY  
MEETING BROKEN UP

Boston, Dec. 22.—Congressman John A. Kelley was one of several speakers who were hushed and denied a hearing at a political rally last night in the interior of James J. Storrow, a mayoralty candidate, and, although a detail of police was called in and the uproar was partly quelled, the meeting was cut short. It was the first disturbance of the kind in the present campaign. The district is regarded as a stronghold of supporters of one of the opposing candidates, former Mayor Fitzgerald.

DOWAGER DUCHESS  
OF MANCHESTER'S FORTUNE

Cincinnati, Ohio, Dec. 22.—Much local interest was aroused by the cable dispatch regarding the will of the Dowager Duchess of Manchester. It is learned here that the dowager duchess in her last will and testament, just probated, left her entire estate to the children of the Duke of Manchester and Helena, his wife, formerly Helena Zimmernan of Cincinnati. The estate is estimated at between \$5,000,000 and \$6,000,000. Two-thirds of the estate go to the oldest son, Viscount Mandeville, when he becomes the tenth duke of Manchester. The other two-thirds go to the second son, Lord Eugene Fernando Montague. Viscount Mandeville, upon becoming the tenth duke of Manchester will get, in addition, Tandragee castle and all of the property on the west coast of Ireland and considerable town property belonging to the Manchester estate. He will also get Kimbolton castle and Brampton castle, these last two places covering about 25,000 acres, within 50 miles of London. Kimbolton castle is the historic castle of the family.

The Duke and Duchess of Manchester get the income of the estate as long as they live and a twelfth of the income after the third of the estate is left in trust for the three remaining children of the Duke and Duchess of Manchester.

IDENTIFIED WRONG  
MAN AS HOLD UP

San Francisco, Dec. 22.—The efforts of the police to fasten the identity of the San Francisco "drug store" bandit upon a dead man, formerly a member of the police department, apparently met with success today.

Although the victim of two hold-ups, said that the body of Walter R. Carroll, now in a morgue at San Jose, where Carroll committed suicide last Friday, bore a strong resemblance to that of the robber, detectives established an alibi for Carroll that looked strong. It was discovered that at the time of the series of hold-ups Carroll was working on a ranch 80 miles from San Francisco.

THREE POLITICAL  
ASSASSINATIONS

Col. Karpoff, Chief of St. Petersburg Secret Police, Blown to Atoms by Bomb Explosion.

## EAST INDIAN JUDGE KILLED

Korean Premier Fatally Stabbed—Prime Minister of Roumania Shot by Anarchist.

A remarkable series of political assassinations of personages high in office is reported today from widely separated points.

In Seoul, Korea, the prime minister of the Korean cabinet was stabbed to death as an apparent result of the intense feeling in Korea against Japanese influence.

In St. Petersburg the chief of the secret police, Col. Karpoff, was blown to pieces by the explosion of a bomb, supposedly thrown by an anarchist.

At Bombay, British India, the chief magistrate of Nasik, Arthur M. T. Jackson, was assassinated by a native, for revenge and presumably as a part of the seditious movement against their official authority.

In each of the countries the governing authority is menaced by a dangerous element directed against the existing regime.

CHIEF OF ST. PETERSBURG  
SECRET POLICE MURDERED

St. Petersburg, Dec. 22.—Col. Karpoff, chief of the secret police of St. Petersburg, was assassinated early today. He had been enticed to a modest apartment in a remote street of the Viborg district and killed by a bomb exploded, supposedly by his host, one Michael Vosskressensky, who had leased the rooms a few days before.

The murderer rushed into the street following the explosion and was captured. An assistant of Karpoff's, who had accompanied him, was severely injured.

Karpoff was appointed from Baku, where he had been chief of the secret police. There have been several convictions of bomb-makers recently.

The assassination of Chief Karpoff undoubtedly was in furtherance of the plot against the secret police which grew out of the revelation last January of some remarkable scandal in connection with the operations of the system. The Russian revolutionary Socialists discovered that some of their members were agents of the secret police and, charges of disloyalty to the revolutionary cause and counter charges followed. Since then the secret police have been the special objects of revolutionary hatred and assassinations.

NATIVE ASSASSINATES  
CHIEF MAGISTRATE JACKSON

Bombay, British India, Dec. 22.—Arthur Mason Tippetts Jackson, chief magistrate of Nasik, in the presidency of Bombay, was assassinated by a native while attending a theatrical performance last night.

The motive for the murder is supposed to have been a wish for revenge upon the magistrate who had recently sentenced a criminal to life imprisonment.

Nasik is a hotbed of sedition. Jackson had been in the British Indian service since 1888.

Whatever may have been the immediate motive for the assassination of Chief Magistrate Jackson, the outrage cannot fail to increase the ever-present fear of an uprising against British rule in India.

Attempts have been made in India against the lives of Lord Minto, Lord Kitchener, Sir Andrew Fraser, the lieutenant governor of Bengal, and many other British officials. On July 1, last Sir William Hutt Curzon Wylie, who had recently held important Indian appointments, was murdered at the Imperial institute in London by an Indian student, who subsequently was hanged. Dr. C. L. Lalca, a physician, who was visiting here in London, also was killed during the fusillade of shots, though his death may not have been intended.

ROMANIAN PRIME  
MINISTER IS SHOT

Washington, Dec. 22.—An official dispatch received today from Bucharest to the effect that the prime minister of Roumania had been shot and seriously wounded by a Roumanian anarchist.

PRIME MINISTER OF  
KOREA FATALLY STABBED

Seoul, Korea, Dec. 22.—Premier Yi, the head of the Korean cabinet, was stabbed and fatally wounded today by a Korean, Yie Chaim Yod.

The attack occurred at 10 o'clock this morning. The assailant, a young Christian, for many years lived in the United States. The premier was riding in his limousine when the assassin with a long kitchen knife in his hand. He drove the knife twice into the abdomen of the premier and once into his lung.

The assassin then turned on the premier's limousine man, whom he stabbed and instantly killed. The assassin was immediately arrested. He is 20 years old and is believed to be a member of a political secret society.

Premier Yi was formerly minister of education in the Korean cabinet. He became prime minister in May, 1907, following a reconstruction of the cabinet by a third Thomsom-Eduard party.

It is held with the emperor. Yi was regarded as a firm and competent officer, but his efforts to carry out the policy of the new administration met with continual opposition from his political adversaries.

PRESENT IN WORLD

Philadelphia, Pa., Dec. 22.—Probably the most costly and beautiful Christmas gift that any woman in the world will receive this year will be a rope of magnificent pearls, said to cost \$750,000, which George Widener will present to his wife, who was Miss Eleanor Elkins, daughter of the late William L. Elkins, the traction magnate. It is the most costly string of pearls in the world.

THE NEW HOSTELRIE  
To be Named

## THE "HOTEL UTAH."

A meeting of the board of directors of the Utah Hotel Co. was held yesterday, most of the board being present. The sessions are called from time to time to pass on the work of the contractors and to inspect the progress of the building. Yesterday's session, however, was almost entirely devoted to the question of giving the hotel an official name, as no decision had yet been arrived at. Many suggestions have been received from time to time, and several names were laid before the board yesterday, but after full discussion it was decided the official name of the imposing structure should be the "Hotel Utah," and as such it will be designated hereafter.

PLANS FOR PLANT  
NEARLY COMPLETE

Power Station to be Built by Church Nearly Ready for Contractors' Bids.

## IS OF MOST MODERN DESIGN

Engineers Have Preliminary Plans Well Advanced and Almost Ready To Submit to Authorities.

The modern heating and lighting plant, which is to be built by the Church of Jesus Christ of Latter-day Saints to take care of the numerous buildings owned by the Church on and around the Temple block, will be an accomplished fact next summer, according to the preliminary plans formulated by Gray and Gross, consulting engineers of this city. Their report to the committee in charge will be submitted shortly with specifications for the work after which bids will be called for. This is expected to take place early in January, and the work will, in all probability be pushed to completion, to have everything in readiness next fall.

The system is a most elaborate one and the plan will be strictly up-to-date. The entire system will cost between \$150,000 and \$200,000. It includes besides the erection of the plant on the vacant ground in the center of the block immediately west of the tabernacle, formerly occupied by Silver Bros. foundry, the construction of tunnels through the Temple block and under the streets so as to connect with Temple block, and the construction of a power plant, which will be fitted with the latest machinery and appliances by means of which, with a stack 175 feet high, the smoke difficulty is expected to be largely overcome.

FREDERICK COOK  
IS NOT DOWNED YET

Anthony Fiala, Arctic Explorer, Says Fiasco Will Result in Future Good.

## CAPT. B. S. OSBORN HAS FAITH

Secretary of Arctic Club of America Says Will be Important Developments Soon.

New York, Dec. 22.—Anthony Fiala, the Arctic explorer, who has been one of Dr. Cook's warmest supporters, joined the chorus of unbelievers today. He says:

"It is incomprehensible and inconceivable. Dr. Cook made friends everywhere he went and his friends stood by him as long as they could. It is distressing to think that such an end should come to his career."

"There is one thing that this will do. It will make it necessary in the future for explorers to be extremely careful in their work. An explorer, who wishes to be believed will do well to follow Peary's example and have skilled men as the heads of supporting parties."

"There is no question of Peary's having gone to the pole. His expedition was scientifically worked out and its results show that Peary knew what he was doing."

"The Cook fiasco will eventually result in great good to the cause of exploration. It will set the business of exploration on a firm, scientific basis."

## CAPT. OSBORN HAS FAITH

Capt. B. S. Osborn, secretary of the Arctic Club of America, who has been spokesman for the Cook partisans, is not yet convinced.

"This argument is not yet over," he says. "There are going to be more important developments very soon. I am not at liberty to say what these are, but they have to do with the whole Cook controversy and will make some people, I think, feel mighty queer."

"You will find that Dr. Cook is not downed yet. He is pouring something for his enemies now, and when he gives it out you can be sure it will be worth while."

LADIES OF DENMARK  
BELIEVE IN DR. COOK

New York, Dec. 22.—The ladies of Denmark will never believe that Dr. Cook was wrong, and his daughter, who is with me, will keep when she hears the report," said Dr. Maurice F. Egan, American minister to Denmark, whom the Danes now partly blame for his strong partisanship of Dr. Cook which led them to recognize the American explorer as the discoverer of the north pole.

Dr. Egan, who is here today on the steamship Oscar II, and will remain during the holidays, talked freely regarding his own part in the enthusiastic reception of Dr. Cook at Copenhagen, while he is pouring something for his enemies now, and when he gives it out you can be sure it will be worth while.

"What I did for Dr. Cook," said the minister, "I don't believe influenced Dr. Cook appreciably in his reception of the explorer. Cook reached Copenhagen with a story of polar conquest which there was then no reason to doubt. Danish explorers vouched for Cook's standing in the world of discovery and received him with open arms."

"I myself welcomed him not only as an American seeking civilization after harrowing experiences and needing assistance, but as a citizen who from his then undisputed story, had accomplished a great task."

"Officially I did practically nothing for Cook but to supply him with clothing and give him a small reception which newspaper men attended," continued Dr. Egan. "His presentation to the king came about as a result of the Danish desire to have the explorer. At the prince's request I took Cook to the palace where he met the members of the royal family."

"It can hardly be denied the fact that Dr. Cook was an American helped him gain immediate credit for his story, for the Danish people are great admirers of Americans."

WHY SPEAKER CANNON  
LEFT FOR HIS HOME

Washington, Dec. 22.—Speaker Cannon left Washington for Danville yesterday. The only reason he could give for going home this year to spend the holidays was that the chimney in his house here was not big enough.

"You come out here for Christmas and be Santa," was part of the message the speaker received from his little Helen Leure, one of his granddaughters, who lives in Danville. The little girl added:

"I want you because your chimney there in Washington is not big enough for Santa Claus to get down."

Squad of Police Swoops Down on Scene Of Old Tragedy.

Tuesday night Detective Harry Curran and a squad of police raided a place at 50 west Third South street and arrested U. M. Ryan, James Ryan and George Howell. The police believed that one of the three would prove to be the man who robbed Young's cafe Monday night.

The men were arrested in the place once occupied by Frank Rose who foully murdered his wife on Christmas day of 1904 and left his baby boy with a bullet in his back. The crime was executed at the state prison.

The police learned this morning that the holdup man had been at the place twice and associated with the three men. They are being held in the city jail pending further investigation.

PROTEST AGAINST  
SALT AIR FRANCHISE

Proposition to Make Temple Block Vortex of Resort Traffic Is to Be Fought.

The proposition to make the temple block corner at the intersection of South Temple and Main streets the uptown depot for the Saltair beach trains by installing a third streetcar track on South Temple and North Temple and connecting the two streets with another track on north Main street, has raised a storm of protest from residents along the proposed line, and has from the residents over the city who are interested in having the sanctity of the Sabbath and their religious services in the tabernacle undisturbed.

Eleven prominent citizens and church members have taken the matter up with a view of entering a strong protest against such a franchise being granted at the next meeting of the city council. The matter came up on Monday and was held over until next meeting, when it was again discussed.

This franchise is being opposed, counts for anything, the city fathers will hesitate in granting it.

The move in the matter object to the lining up of probably dozens of streetcars in the vicinity of the temple block as is often the case at the Salt Lake. In addition to this, the public feature is a decidedly objectionable to have the Saltair Sunday business focused there as thousands of religious worshippers from all over the city are going to worship in the tabernacle.

At 2 o'clock this afternoon the two made their appearance at the city and county building and applied for a marriage license. When they gave their names they were detained by two men who the sheriff appeared when they were placed in duress. The girl vowed through streaming tears that she would marry nobody.

## GRAND THEATER DARK.

Stock Company Walks Out and House Is Temporarily Closed.

A difference over financial matters caused the members of the stock company which has been playing at the Grand theater to refuse to go on with the evening presentation Tuesday night of "Kathleen Mavourneen," which was billed for the week and a large audience was dismissed. It was requested of the management that salaries be guaranteed until the first of the year and this was refused.

Today the difficulties were adjusted and the theater will reopen for a Christmas matinee and night performance of the same play which was last seen Tuesday night. Next week the same company will appear in a new bill, playing throughout the week with the usual matinees.

Pelton and Smutzer, lessees of the theater, announced today that opening Jan. 9, the Zinn Travesty company, a musical comedy aggregation, familiar to the local theater-goers through six months' engagement several years ago, would hold down the boards for an indefinite period. Negotiations are now on for another company to fill up the vacant week beginning Jan. 2. Willard Mack and several members of the present company go to the Enghelav on Jan
